featuring detailed commented spectral profiles of more than one hundred astronomical objects in colour this spectral guide documents most of the important and spectroscopically observable objects accessible using typical amateur equipment it allows you to read and interpret the recorded spectra of the main stellar classes as well as most of the steps from protostars through to the final stages of stellar evolution as planetary nebulae white dwarfs or the different types of supernovae it also presents integrated spectra of stellar clusters galaxies and quasars and the reference spectra of some terrestrial light sources for calibration purposes whether used as the principal reference for comparing with your recorded spectra or for inspiring independent observing projects this atlas provides a breathtaking view into our universe s past the atlas is accompanied and supplemented by spectroscopy for amateur astronomers which explains in detail the methods for recording processing analysing and interpreting your spectra

this accessible guide presents the astrophysical concepts behind astronomical spectroscopy covering both theoretical and practical elements suitable for anyone with only a little background knowledge and access to amateur level equipment it will help you understand and practise the scientifically important and growing field of amateur astronomy

us families have been pushed to the wall at the bottom of the economic ladder poor and working class adults aren t forming stable relationships and can t give their kids the start they need because of low wages and uncertain job prospects toward the top professional parents lives have become a grinding slog of long hours of paid work meanwhile their kids are overstressed by pressure to succeed and get into good colleges in this provocative book maxine eichner argues that these very different struggles might seem unconnected but they share the same root cause the increasingly large toll that economic inequality and insecurity are taking on families it s government rather than families that s to blame eichner persuasively contends since the 1970s politicians have sold families out to the wrongheaded notion that the free market

alone best supports them in five decades of free market family policy they've scrapped government programs and gutted market regulations that had helped families thrive the consequence is the steady drumbeat of bad news we hear about our country today the opioid epidemic skyrocketing suicide and mental illness rates deaths of despair and mediocre student achievement scores meanwhile politicians just keep telling families to work a little harder the free market family documents us families impossible plight showing how much worse they fare than families in other countries it then demonstrates how politicians free market illusions steered our nation wildly off course finally it shows how using commonsense measures we can restructure the economy to work for families rather than the reverse doing so would invest in our children's futures increase our wellbeing reknit our social fabric and allow our country to reclaim the American dream
